The New Purchasers Take Charge; Will Begin Extensive Development.

LAS CRUCES, N. M., Dec. 6.—The big tract of land known as Shalem colony, owned by the well known Juanita Ranch company, composed of J. F. and R. J. Lucius, of Louisiana, W. J. Harris and W. C. Davis, of El Paso, and Dr. I. C. Oden, of Dona Ana, has been sold for \$125,000. The land has long been known as one of the best tracts in the valley under the Elephant Butte project and is situated near the station of Dona Ana. It is good level land, 800 acres being in cultivation, 675 of which are in alfalfa, and it is one of the best producing alfalfa farms in this section.

There are 1692 acres in the tract and it was sold to five American families on terms extending over a period of 15 years, deferred payments at 7 percent interest.

The parties purchasing the land took possession today and will begin immediately to further develop the property and to put the entire acreage into cultivation. This same tract sold five years ago for \$45,000.

A SUNDAY SCHOOL PROBLEM.

Canutillo, Tex., Dec. 4. Editor El Paso Herald: Will some one tell us how to get parents and children to come to Sunday school. We are trying so hard to have a Sunday school, but we cannot get the older people out. Those who have children do not come or send their little folks. We have such a nice valley and good people—no better can be found, only they will not come to church or Sunday school.

I do wish next Sunday we could have the largest crowd we have had yet. To a "ditch meeting" they come, or any other meeting. I do not blame them for that, but come to church, too! We like to go to other places, also to church. Now for the good of ourselves, as well as the upper valley, come out. Sunday school will adjourn next Sunday for good if there are not enough to come to make it interesting. Mission.

PRIEST WILSON'S MEXICO POLICY.

Plainview, Tex., Dec. 4.

Editor El Paso Herald: Referring to your editorial "An Army Man's Mexico Policy" in your paper of Monday last, I am of the opinion that such statements made by those not as close in touch with the Mexican situation as president Wilson, are liable to cause regrets in the future.

To comment editorially on a subject of this character in an old language as is used in this article, one should be in the same position relative to existing conditions as the president. Fortunately such matters are not left to servants of the United States like the officer who lays claim to this article. To say the least he is assuming a great deal of liberty in taking issue with our president on a subject that allows him small latitude to obtain the facts.

We will let time show the public who is in error regarding this delicate subject, and in the meantime I think it good policy to leave the matter in the hands of those who are on the inside and endeavor to hold up their hands, until some grave error has been committed.

You have a great daily paper and I enjoy its columns from a news standpoint, but I cannot endorse such letters receiving favorable editorial space and comment.

ENGLAND'S HYPOCHRISY.

La Mesa, N. M., Dec. 4.

Editor El Paso Herald: The critics of our government's Mexican policy as cable from London, quoting the "Outlook" is, to say the least, ridiculous, and would move a wooden Indian to smile.

Listen to the English apostle: "War between the United States and Mexico, if it arises, will be the first war waged solely for private greed—the first money grabbers' war." After saying that the United States has been "filching territory from its neighbors for 60 years and has reduced weak states to obsequious dependencies through the Monroe doctrine which means anything it is required to mean," the Outlook predicts that American dollars will create revolutions in Trinidad and Jamaica, as it alleges they did in Panama and predicts the annexation of the northern Mexican states.

Think of it, it would be the first war waged solely for greed, the first money grabbers' war. The irony of it, apart from all other considerations! What about England's stealing of the Boer republics, only half a decade ago? What about Dr. Jamieson's invasion at this age of civilization, and the armed rebellion at Johannesburg synchronous

with the raid, financed by English capital, carried out by English officers, with regulation arms, etc., all to provoke a "casus belli" for the land's armed forces to be turned loose upon a peaceful, Christian little nation, and threaten to death the little baby crawling in the dust.

Have Englishmen so soon forgotten that diabolical crime against civilization? To accuse the United States of contemplating designs upon Mexican territory, after the tolerant policy of the present administration covering many months, during which citizens of this country were ruthlessly killed, and American property destroyed, it seems beyond comprehension, even for an Englishman to be so unjust, and misguided.

B. J. Wilson, General Late Boer Forces.
